THE CONFESSION.

The Heraid will further say:
Mrs. Augusta Nack has made a full confession. She had until today uttered no word that would incriminate herself. She had withstood the efforts made by the police to extort from heran admission that she had killed William Guldensuppe or that she had plapned his death and lured him to Woodside, where Martin Thorn actually did the shooting. The woman had been subjected to the thirty-third degree by the police, and to every known method of torment. She had been confronted by the horrid masses of fless. She had been coaxed, wheedled and threatened. The promise of life had been held out to her as a reward for a few words that would surely result in Thorn's execution. She had remained during her imprisonment at police headquarters.

William F. Howe, senior counsel for Martin Thorn, says at the Park Avenue hotel tonight:

"This is atrocious, I had the most perfect defense ever presented in a court. I am utterly at a loss to understand how any lawyer with the entire absence of evidence against Mrs. Nack would have sanctioned her making a so-called confession, for, assuming that her story be true, which I deny in so far as it may implicate Thorn, if it does in any way, there was no evidence in the possession of the district attorney to show that Mrs. Nack was anything more than accessory after the fact, if Guidensuppe was killed in the way attributed."

Sheriff Doht says he knows nothing of any confession made by Mrs. Nack.

Milledgeville, Ga., Nov. 2.—The negro section of the Georgia insane asylum burned today.

There were within the walls at the time the fire broke out, immates and all, over 100 persons, but no lives were lost. The group of buildings constituting the section covered about four acres. The fire started in the attic, above one of the wards of the east side. The fire walls of the building did not extend to the roof, and as a consequence the fire traveled under the roof, and dropped the sparks below. The tiers being divided by solid brick walls, the progress of the fire was slow, but very steady about ten hours elapsing before it was ehecked. The asylum water service was reinforced by engines from the fire department of Macon, 30 miles away, brought upon a special train. Dr. Ellis, superintendent of the asylum, estimates the loss at about \$100,000, including buildings and furniture, upon which there is insurance of about 50 per cent.
